

Add value to your business with Bainbridge Mountboard

Exceptional Standards

The most stringent specification and quality control in the industry means we set standards well above others to protect your reputation as well as ours.

Exceptional Products

Our Artcare mountboards have changed best practice completely in the framing industry, and offer framers a quantifiable advantage over other mountboards and a proven customer benefit.

Exceptional Design

Bainbridge mountboard ranges are regularly updated from colour research and forecasting to offer the widest range of design choice in the industry.

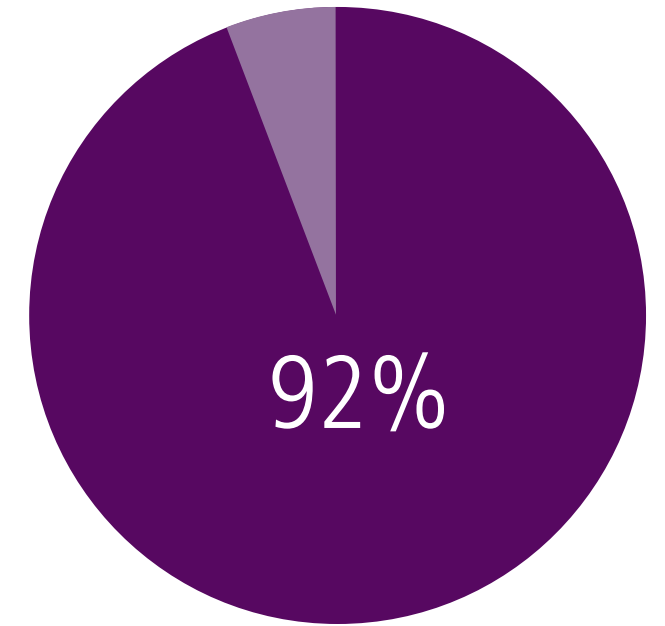

We test so you can rest

At Bainbridge we test every delivery of raw materials in our own on-site laboratory so you can rest assured that by choosing Bainbridge your reputation is in good hands.

We test each delivery for:

- Colour standard ✓
- Colour permanence ✓
- Zeolite content ✓
- Burst strength ✓
- Surface smoothness ✓
- Sizing, Cleanliness ✓
- Cutability ✓

Research results say 92% choose Bainbridge because it is the best quality

Surface paper colour checked on a MacBeth Spectrophotometer

Artcare surface paper colour permanence is tested on an Atlas Xenon Weather-ometer CI35A

Artcare boards are put through the pollutant absorption test

Testing for burst and tensile strength are performed on the B.F. Perkins Mullen® Tester and the Thwing-Albert QC-1000® Materials Tester

Computer-controlled pigment delivery system monitors and maintains accurate colour match
