

Add value to your business with Bainbridge Mountboard

Research results say 92% choose Bainbridge because it is the best quality

✓ Exceptional Standards

The most stringent specification and quality control in the industry means we set standards well above others to protect your reputation as well as ours.

✓ Exceptional Products

Our Artcare mountboards have changed best practice completely in the framing industry, and offer framers a quantifiable advantage over other mountboards and a proven customer benefit.

✓ Exceptional Design

Bainbridge mountboard ranges are regularly updated from colour research and forecasting to offer the widest range of design choice in the industry.

✓ We test so you can rest

At Bainbridge we test every delivery of raw materials in our own on-site laboratory so you can rest assured that by choosing Bainbridge your reputation is in good hands.

Surface paper colour checked on a MacBeth Spectrophotometer

Artcare surface paper colour permanence is tested on an Atlas Xenon Weather-ometer CI35A

We test each delivery for:

- Colour standard
- Colour permanence
- Zeolite content
- Burst strength
- Surface smoothness
- Sizing, Cleanliness
- Cutability

Artcare boards are put through the pollutant absorption test

Testing for burst and tensile strength are performed on the B.F. Perkins Mullen® Tester and the Thwing-Albert QC-1000® Materials Tester
