

# Bainbridge Artcare Bevel Accents

## Add value with these ready-to-cut design accents

- Gives a luxurious high value finish
- Unique deep bevel look
- Artcare protection
- Completed in minutes and no measuring required

Bevel Accents are 5mm-thick bevelled foamboard strips, pre-wrapped with Bainbridge Artcare surface papers. Due to their unique design, you can create a deep wrap bevel for any frame job in minutes, with no measuring required.

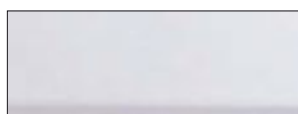

Bevel Accents create a rich depth and dimension that surrounds and adds value, and delivers real additional profit from your framing.

Bevel Accents are available in 20 surface finishes from the Bainbridge range, including metallics and silk. The foamboard and surface papers are all in our unique Artcare quality and suitable for full conservation framing.

A Bevel Accents box contains 4 x 1 metre strips, each bevelled and pre-wrapped with surface paper; that is enough, for example, to complete two frame jobs with a window mount aperture of 16" x 20" (40 x 50cm) each.
